*The Spring Equinox is about Balance, Fertility and Birthing, Creating, Planting Seeds of Change, Blossoming Anew!*

*Often times we need to retreat in order to bring balance into our busy lives, a time to get away, to rest and rejuvenate, a time to be still and reflective.*

*The Equinox is also a gateway, a doorway that will lead us through rites of passage and initiation.*

*We are gathering together to celebrate this magical time of year when the stars align to remind us to shine!*

*Welcome the energies of Spring and all the blessings it will bring!*
